

My comments

張 帥

I think all of staffs in our department are very friendly and warm hearted. When I arrived in Nagasaki, I do not know speak Japanese, and I don't speak English well. Professor Eguchi is very concerned about me. He give me enough time to learn, to study and gradually, I could communicate with a lot of members in our departments, such as Hidaka sensei, Yamanouchi sensei, Soyama sensei, Tanaka sensei, Sakai sensei, Koike sensei, Zhassulan etc. For prepare my research, journal club, report my research progress and prepare for abstract of congress, I must read many papers, articles, These things keep learning and study , So I harvested a lot.

I like many activities in our department annually, for example, cherry blossom viewing, go to barbecue, and go to hot springs, play baseball, basketball etc. We are a group, a team, and everybody collaboration with each other.

In future, I hope have more chances to communicate with our department, something like: international academic communication, research, surgery operation etc. Thanks for Pro. Eguchi, Thanks for everybody.
